* Except apprentices

Flexible Working

Parents with children under 17 can now request flexible working. This previously only applied to parents with children under 6. However, employers can still refuse the request, with the usual proviso that the refusal should be reasonable.

Holiday Entitlement

Currently, the minimum statutory holiday entitlement is 5.6 weeks per year, pro rata. For employees working a five day week, this represents 28 day's holiday. For employees working, say, three days a week, their entitlement will be 16.8 days per year.

This entitlement can include bank holidays. The contract of employment should specify whether or not it does. Statutory minimum holiday cannot be carried over to the following year. Some employers may allow additional holiday to be carried over at their discretion.

Rolled up holiday pay, where payment is given instead of days off, has now been declared unlawful.
